

"Do-your-bit" Biscuits

1 level tablespoon COTTOLENE
1/2 cup pastry flour
1/2 cup white corn meal
4 level teaspoons baking powder
1/2 teaspoon salt
1/2 cup milk or half milk and half water.

Sift together flour, corn meal, baking powder and salt. Rub in chilled COTTOLENE with fingertips, very lightly. Add milk and water and mix to soft dough with knife. Roll and cut. Bake in hot oven for 15 minutes.

Uncle Sam says "Save animal fats."

"COTTOLENE saves your money too."

INCOME TAX IS NOW DELINQUENT

WASHINGTON, April 2.—Although persons who failed to have their income tax returns in the hands of revenue collectors by midnight last night, are subject to penalties, some leniency will be shown for returns which arrive today and for whose tardiness some good reason is presented, it was intimated today at offices of the revenue commissioner here.

Some collectors, it was said, are expected to accept all returns arriving in today's mails without question. Technically, however, the responsibility for having the returns in collectors' offices is on the taxpayers, and the excuse of belated mail service will be accepted only as a means of simplifying collectors' work. All revenue officers were instructed to remain open until midnight last night to receive returns. These were due under the law on March 1, but Internal Revenue Commissioner Roper extended the time for a month.

Wealthy Ogden Widow Would Marry Again

"Now that my stomach trouble has all disappeared since taking a course of Mayr's Wonderful Remedy I would even consider getting married again. I cannot tell you how terribly I suffered before taking this great remedy. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. A. R. McIntyre Drug Co.—Advertisement."

GET KAISER'S GOAT-EE.

GENERAL LYONS GIVEN A TRIAL

CAMP KEARNY, Cal., April 1.—Utah's soldiers were thrilled today when Brigadier General Leroy S. Lyons occupied a seat in a battleplane piloted by Lieutenant Maitre, when the French "ace" put the machine through the wildest stunts ever pulled over the cantonment.

"I want to go up with you today," said General Lyons, "and I want you to put the old wagon through the best hairbrainers you have on your list." Within a few moments he stepped into the fast battleplane, clad in leather helmet, coat and goggles—and in a few moments he got his wish.

While the entire soldier population of Camp Kearny looked on in silence, the plane shot into the air and rapidly climbed to a great altitude. When the plane appeared but a tiny speck in the sky it suddenly shot downward and over and over in full loops. It then slipped sideways and turned over several times, until it appeared to the spectators that surely the pilot had entirely lost control. But the drunken maneuvering was only an exhibition known as the falling leaf, and with a sudden swoop forward, the plane was straightened out. Then came banks, side slithering spins and several other stunts accomplished only by the expert, until a low altitude had been gained and the plane was but a few hundred feet over the camp.

General Only Smiled.

The French lieutenant turned quickly about, expecting to see at least a grim look on the general's face, but he saw only a smile. Suddenly the pilot dived downward with the idea of giving his passenger a thrill. The plane just cleared the telegraph wires near the railroad tracks, more than a quarter of a mile from the landing place on the parade grounds, and it was here that both men courted disaster. The plane had swooped so low that even with full power suddenly exerted it was with difficulty that the machine could keep clear of the forest of tents below. The plane hit the parade grounds with a bump—not an easy glide, as is usual—for the jammed plane had made this impossible.

The officers piled from the seats, and still the smile remained upon the face of General Lyons, but there was not such a happy look upon the pilot's face, for he had understood the peril in that brief space of time. The flight will be the main subject of conversation for Camp Kearny for many days.

Utah Men Flies.

Lieutenant Paul Williams of the Utah regiment, and now attached to General Lyons' staff, also made a flight today with the French flyer. Lieutenant Williams also received his share of thrills when the pilot put the plane through several difficult stunts. Nearly every officer in the Utah regiment has been in the air.

Pay day blew in this morning, following reveille, and was welcomed with the usual loud shout from the artillerymen. The \$7 or \$8 which is the average pay, after deductions have been made for insurance, allotments and canteen checks, disappears early in the month, and there is a long wait until the joyous tune again bursts forth from the bugles. The entire regiment was paid off within two hours' time during the afternoon.

Utah led again in health in the entire division during the past week, according to the health report issued today. The winning of this is now becoming such a regular thing here as to attract attention paid to it. But the divisional sanitary department never forgets a good score, and he sings his praise for the healthy and husky Utah men. The average sick in the command for the week was 25.7 men per thousand. The 15th machine gun battalion came next with 31.8 and the 15th sanitary train third with 31.8. Utah led by a big margin.

To Undergo Training.

A new selection of men to undergo a course in physical training here as instructors for their units, was ordered today. Men of perfect physique were asked to be sent to the school, which opens in the division Monday. The following men were chosen:

Supply company, Ernest W. Christensen, headquarters company; Corporal F. E. Lanham, A battery; Corporal Emberg, B battery; Sergeant E. S. Pingree, C battery; Corporal Koford Jarvis, D battery; Private Grover Anderson.

Little Sister's Skin Healed by Cuticura

Could Not Rest in Any Position. Disfigured, Cross and Fretful. Cost Soap and Ointment 75c.

"My little sister broke out all over her body and even on her head in little white blistering places. The skin was very much inflamed and red, so much so that she looked as if she had the measles. It itched so that she would rub her head from side to side on the pillow, but this caused the affected parts to become irritated. She could not rest in any position, and she was very cross and fretful. Her face was very much disfigured."

"She was bad for two or three months. Then we got Cuticura Soap and Ointment, and before one cake of Cuticura Soap and one box of Cuticura Ointment were used she was healed." (Signed) Miss Myrtle Shipp, Glendevy, Colo.

You may rely on Cuticura to cure for your skin, scalp, hair and hands.

Sample Each Free by Mail. Address post-card: "Cuticura, Dept. H. Boston." Sold everywhere. Soap 25c. Ointment 25c and 50c.

sell, E battery, Corporal Ferguson, sanitary detachment; Corporal Bernard Bone.

During their attendance at the school the men will still quarter with the regiment, but will be dismissed from other duties.

An S. O. S. was sent out by the divisional quartermaster department for cobblers, a few days ago, and today three Utah men answered. They will be transferred to the quartermaster department and given the ranks of full-fledged cobblers, receiving the same pay as mechanics, \$36. They are: Private John A. Flores, A battery; Private Alvin E. B. battery; and Saddle G. Brown of D battery.

TODAY'S AID TO BEAUTY

Hair is by far the most conspicuous thing about us and is probably the most easily damaged by bad or careless treatment. If we are very careful in hair washing, we will have virtually no hair troubles. An especially fine shampoo for this weather, one that brings out all the natural beauty of the hair; that dissolves and entirely removes all dandruff, excess oil and dirt; can easily be used at trifling expense by simply dissolving a teaspoonful of Canthrox (which you can get at any drugist's) in a cup of hot water. This makes a full cup of shampoo liquid—enough so it is easy to apply it to all the hair instead of just the top of the head. This chemically dissolves all impurities and creates a soothing, cooling lather. Rinsing leaves the scalp spotlessly clean, soft and pliant, while the hair takes on the glossy richness of natural color, also a fluffiness which makes it seem much heavier than it is. After Canthrox shampoo, arranging the hair is a pleasure.—Advertisement.

Children in the berry patches. For the benefit of fruitgrowers in Utah, the state industrial commission has applied to the federal department of labor for a ruling on the employment of children, particularly as to application of the new child labor law to employment of children in strawberry picking.

Inhibition of employment of children in canning factories has led some strawberry growers to conclude that the law will also apply to strawberry picking, in which boys and girls have heretofore been extensively used. On this account, many owners of strawberry beds have proposed to plow them up as being unprofitable if the labor of children in picking the berries cannot be utilized.

While the child labor law makes an exception in favor of the employment of "bona fide boys" and girls' canning clubs, recognized by the agricultural department of the several states and of the United States, fear is expressed that the impression now held by strawberry growers, with the consequent determination to plow up their beds, may cause a serious shortage in that fruit this year for canning purposes.

Some growers who had intended to plow up their strawberry beds have been induced to hold off until advice shall have been received from Washington by the state industrial commission.

JAPAN'S ATTITUDE TOWARD RUSSIA. TOKIO, Tuesday, March 26.—(By the Associated Press.)—The statement made by Foreign Minister Motono, in addressing a joint session of parliament today, that in the event Japan is compelled to send troops to Siberia, there is no intention whatever of treating Russia as an enemy and that Japan will never adopt an aggressive policy such as Germany is pursuing in European Russia, has excited special interest. The Ozaki opposition has criticized the government for not making a similar declaration before, when Russia was at a loss to know what to expect of the Japanese assisting Germans in Siberia should be regarded as enemies.

Viscount Yasuya Uchida, the Japanese ambassador to Russia, who has arrived here, is quoted as saying that he doubts Germany intends to attack India.

DON'T LET IT LINGER. A cough that follows a gripe or any other "hangs on" from winter to spring wears down the sufferer, leaving him or her in a weakened state unable to ward off sickness and disease. Jos. Gillard, 148 Fillmore street, Nashville, Tenn., writes: "I was suffering with a dry hacking cough and a pain in my chest, but since taking Foley's Honey and Tar I have been relieved. It soothes, heals and cures coughs, colds and croup. Good for whooping cough. A. R. McIntyre Drug Co.—Advertisement."

ALLIANCE WAS DEEP IN POLITICS

WASHINGTON, April 1.—Further political activities of the German-American alliance were brought to light this afternoon before a subcommittee of the senate judiciary committee.

The subcommittee adjourned indefinitely and is not expected to summon any additional witnesses. It is generally believed that the alliance will disband voluntarily before the full committee will take action on the resolution of Senator King, which seeks a revocation of its charter.

Testimony showing what steps were taken last fall by the Allegheny county branch of the organization to prevent the election of municipal candidates in Pittsburgh who were "muckers and German-baiters" was drawn from Pittsburgh campaign all of Pittsburgh and Christopher Saam, all of Pittsburgh, and George J. F. Falkenstein, now a reading clerk in the Pennsylvania legislature. The latter is a former mayor and now city treasurer of McKeesport.

The Allegheny county branch of the alliance started things humming in the Pittsburgh campaign as Saam said it was the German vote that elected the present mayor, E. B. Babcock.

In pre-primary "bulletin" the alliance said: "Cast your vote so that no muckers or German-baiters shall come into control." After nominations it issued another bulletin which said:

"The legislative committee has given these candidates a fundamental tryout. The German element stood firm in the primaries and won a great victory."

All the witnesses said "the fundamental tryout" consisted of an investigation and approval of the records of candidates endorsed by the alliance.

"What was meant by the words 'muckers' and 'German-baiters' asked Senator Wolcott.

"I very much regret that those words were used," said Ulrich, who is president of the Allegheny county branch of the alliance.

The witnesses were especially vehement in denying that the "fundamental tryout" was for the purpose of learning the views of the candidates concerning Germany and things Teutonic. Each witness had a different definition of the word "mucker."

Ulrich said it meant "Puritanism." Falkenstein translated it as "hypocrite." Saam said it conveyed the idea of "narrow-mindedness" and Bucholz asserted it carried the same meaning as that given by a prohibitionist with a stocked wine cellar in his home.

Act of Necessity. "A man can be a prohibitionist and still be a very good man," was the concession of Saam when questioned regarding the stand of the alliance on "dry" candidates.

Ulrich took pains to explain a record of the minutes of a meeting of the alliance in Pittsburgh on October 31, 1917, which read:

"Communication from Treasurer McAdoo read: Resolved that as an act of necessity \$1000 be taken out of the memorial fund and invested in Liberty bonds."

"That isn't a correct translation of our minutes," he declared. "What was meant was an act of necessity to aid our government."

Ulrich also declared that \$50 was donated to the Swiss Red Cross by the local chapter of the alliance because it was "international in its character and would dispense the money to all nationalities." Although appeals to aid the American Red Cross have gone forth from the alliance it has not yet, as an organization, subscribed to its funds.

Minute records of the alliance showed that last March a communication was received from the chief treasurer of a German relief fund informing the members that any money for Germany could be transmitted by wireless.

"Was any sent?" asked Senator Sterling.

"No, our branch didn't send any," replied Ulrich.

EXPORT TRADE OF UNITED STATES

WASHINGTON, April 2.—A tremendous increase in America's trade with Asia is the most notable feature of the commercial year, according to an announcement by the federal department of commerce.

Japanese tonnage virtually has been free from the large demands made on shipping flying other allied flags in the Atlantic and transportation facilities in the Pacific have remained almost normal while war needs were curtailing the available space elsewhere.

Imports for February, the statement said, increased \$8,000,000, while exports declined \$55,000,000 compared with February of last year. The totals being \$207,775,540 for imports and \$411,786,343 for exports. For the first eight months of the fiscal year imports amounted to \$1,841,316,000, an increase of \$294,000,000 over last year. The exports were \$3,863,348,227, which was \$219,000,000 less than last year. Consequently the trade balance of \$2,022,032,137 is less by \$599,000,000 than in 1917.

Domestic Coal Company of Nova Scotia and its miners have reached an agreement upon a wage increase of about 17 per cent.

BERLIN CLAIMS 75,000 PRISONERS

BERLIN, via London, April 1.—German troops have captured the heights of Moreuil and also Arrachis wood, on the western bank of the Avre river, according to the official report from headquarters today.

The prisoners have increased to more than 75,000, the statement adds.

The text of the statement reads: "On the battlefield north of the Somme artillery and mine thrower firing revived during the evening. Between the Luce rivulet and the Avre we continued our attacks and captured the heights north of Moreuil. British and French troops, which several times vainly came forward in counter-attacks, suffered heavy losses."

"A local attack on the western bank of the Avre placed us in possession of Arrachis wood."

"Yesterday French divisions, in repeated assaults, attempted to recapture lost villages and heights to the west of Montdidier, as well as between the Doms and the Matz. Their attacks broke down with sanguinary losses."

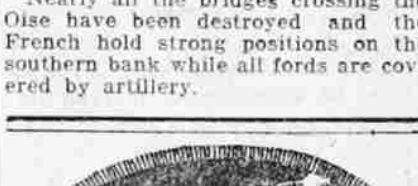

"With the fighting during the past few days the number of prisoners brought in since the beginning of the battle has increased to more than 75,000."

"In the other theaters there is nothing new."

ANNIHILATION OF A STORM BATTALION

WITH THE FRENCH ARMY IN FRANCE, Sunday, March 31.—(By the Associated Press.)—A daring attempt by the Germans to cross the Oise today and form a bridgehead permitting of future advances was easily frustrated by the French. One of the famous storm battalions succeeded in getting over near Chauny, but never returned. It was almost entirely annihilated. There remained only about 100 unwounded men, whom the French took prisoner.

Nearly all the bridges crossing the Oise have been destroyed and the French hold strong positions on the southern bank while all fords are covered by artillery.

Rheumatic Aches. Drive them out with Sloan's Liniment, the quick-acting, soothing liniment that penetrates without rubbing and relieves the pain. So much cleaner than musky plasters or ointments; it does not stain the skin or clog the pores. Always have a bottle in the house for the aches and pains of rheumatism, gout, lumbago, strains, sprains, stiff joints and all muscle stiffness.

Generous size bottles at all druggists.
